

URGENT NOTICE

**Water Supply Interruption
Cullinan Water Supply Scheme**

Wednesday, 22nd April 2026

**Subject: Water Supply Interruption Due to Implementation of Water Demand
Management at Cullinan Water Treatment Plant**

Magalies Water hereby notifies bulk consumers receiving water supply from Cullinan Water Supply Scheme, of imminent water supply interruptions. The current water demand in the system has increased by eight percent, causing constraints on the current supply. Furthermore, current constraints are exacerbated by the bulking inside pipeline that could not be fully removed during the cleaning activity last month. Plans are underway to conclude cleaning of the pipeline which is restricting full flow.

In the interim, Magalies Water will implement water demand management in the evenings which will result in reduced supply to customers during that period. Residents are advised to use water sparingly to prevent prolonged water supply interruptions. Magalies Water apologizes for the inconvenience caused in this regard.
