URGENT NOTICE

Water Supply Interruption

Lapatrie Northern Supply & Kortbegrip Water Supply Schemes

Sunday, 18th October 2026

Subject: Water Supply Interruption Due to Low Voltage Supply to Vaalkop Water Treatment Plant

Magalies Water hereby informs its bulk customers receiving water supply from Vaalkop Water Treatment plant, of imminent water supply interruptions. This is due to an electrical voltage dipping into the plant from Eskom's power grid. Consequently, this has resulted in reduced pumping rates. Eskom has been alerted of the low voltage supply, and at this stage no turn-around time has been communicated.

At this stage the low voltage supply currently affects supply linked to Lapatrie Northern Supply and Kortbegrip Supply Schemes. The following customers will be affected by water supply interruptions:

- Rustenburg Local Municipality (jurisdictions supplied through the affected supply schemes)
- Thabazimbi Local Municipality
- Moses Kotane Local Municipality
- Mining operations in the above jurisdictions (supplied through the affected supply schemes)

Magalies Water apologizes for the inconvenience caused in this regard.
