URGENT NOTICE

Water Supply Interruption

Walmannsthal Supply Scheme

Sunday, 11th October 2026

Subject: Water Supply Interruptions at Walmannsthal Supply Scheme Due to Low Augmentation Supply from Roodeplaat Water Treatment Works

Magalies Water hereby informs customers receiving bulk water supply from the Walmannsthal Water Supply Scheme of imminent water supply interruptions. This follows reduced flows into Walmannsthal Water Treatment Plant from City of Tshwane operated Roodeplaat Water Treatment Plant. The current supply constraints from Roodeplaat Water Treatment Plant will regrettably result in Magalies Water implementing water demand management from 20:00 this evening.

This action is necessary to ensure that customers receive supply, albeit at reduced volumes, and that equitable provision of water services remains across the supply scheme possible during this period.

We encourage customers to use water conservatively, in order to reduce the impact of the current supply limitations. Magalies Water apologizes to customers for the inconvenience caused in this regard.
